Gorilla trekking in Rwanda is often described as “life changing” and with good reason. With only an estimated 880 Gorillas left in the world, to see these gentle creatures in their natural habitat are a truly unique moment. Hikes in the mountains can last anywhere from 30 minutes to 4 hours+ depending on the family allocated to your group and their location. The journey back can take just as long, but you are often carried along by the euphoria you feel after seeing the gorillas,

The largest gorilla group ever studied is in Rwanda and was led by Cantsbee. He was the oldest known mountain gorilla in the world. A gorilla family is led by a Silverback and include several younger males, adult and juvenile females, and infants. In addition to providing protection to group members, Silverbacks maintain order and decide all activities within their troop. They schedule feeding trips, resting time, and travel. They also father the majority of young in the group.

For gorilla trekking, you will be in rainforest, so it will more than likely than not, rain. Warm clothing is required as well as walking/hiking boots, a hat and lightweight parka/raincoat. Garden gloves, to avoid stinging nettles, and gaiters, are recommended.

After a most memorable experience encountering these creatures, you will return to the hotel for lunch. After lunch visit Iby'Iwacu.
